## The Abaco Club

### Winding Bay, Bahamas

The Abaco Club, located on Great Abaco Island in The Bahamas, is a private golf community nestled on a quiet crescent-shaped bay with 2.5 miles of white sand beach. Indeed, it offers just about everything a snowbird is looking for in a private golf club. There are beautiful homes, expansive, private beach, excellent dining facilities and a championship golf course, all less than 200 miles off the Florida coast. The Club is well known for its Scottish-style links designed by renowned architects, Donald Steel and Tom Mackenzie. Not typical of a Caribbean course, it plays firm and fast, making the most of its seaside location, with pot bunkers and challenging, sloping greens. [theabacoclub.com/](http://theabacoclub.com/)
